# FEEDBACKS – DASAMAYA 2023

The LWA School's annual day function on September 16<sup>th</sup>, 2023 was fantastic and the performances were outstanding. My son was excitedly anticipating the event. He was going to school for practice and doing it at home as well. Despite the rain scaring us for a while, the lighting and display made for a wonderful evening. The function was well thought out and beautifully conceptualized. The acts and dances of the tiny toddlers were a reflection of the efforts of the teachers and staff. Watching them was a stress-buster. Our kids were encouraged to perform better in fine arts and studies thanks to the overwhelming experience. I thoroughly enjoyed the program.

Dear Principal Madam,

Congratulations for the successful Dasamaya event yesterday even with heavy rain pouring. This time, all arrangements and children showcase were amazing. Chairs are clean, no mosquito biting (I guess pest control sprayed), video and audio both are very clear, live web stream another classic idea, adequate snacks drinks available, water facility every corner, energetic teachers & staffs ensured seamless support, no unnecessary Mike announcement, panic less handling of crowds during raining, simple & very supportive special guest, great cooperation from students & their parents etc.. All are commendable. Franklin D. Roosevelt said "A smooth sea never made a skilled sailor". As a captain, you managed the event very well even with heavy tides winds rains yesterday. All teachers & staffs efforts are highly appreciated. Hard work never gets wasted, another proof yesterday, even Varuna gave way for atleast 3 hours to showcase your efforts. It's pity that We definitely missed higher class students performance & chief guest speeches but fair enough given the weather circumstances atleast we could cover 90% of planned agenda. Also, congrats and best wishes for 10 years awarded teachers & staffs. Please keep it up & share our thanks to all of LWA teachers & staffs who made this event a grand success! Only one suggestion for improvement: if possible, next time let's ensure much more smoother transition between each programmes so audience gets continuously engaged. This is definitely possible because you have already set the high class benchmark. Once again thanks & regards.
