GANDHI JAYANTHI ASSEMBLY

Class VII - A

Mahatma Gandhi or more lovingly known as **BAPU** by all Indians is widely acknowledged as one of the 20th century's most influential people, who employed non-violent resistance to lead the successful campaign for India's independence from British rule. Mohandas Karamchand Gandhi was born on October 2, 1869, in Porbandar, Gujarat. Gandhi was at the forefront of the freedom struggle against British colonial rule and later inspired movements for civil rights and freedom across the world.

On 2nd October every year, Mohandas Karamchand Gandhi's Birth anniversary, known as **Gandhi Jayanti** is celebrated all over India. This day provides an excellent chance for countrymen to pay tribute to this great leader, who gave his life for the country's benefit. To remark on his remembrance, **students of class VII - A of Lightworkers Academy held a special assembly on October 17th 2022. On this day, his 153rd birth anniversary was celebrated.**

The day began with singing his most preferred devotional song by the students of Class 7A '**Raghupati Raaghava Raja Ram**'. The students made drawings, and beautiful slogans, and decorated pinboards with creative items. Mohandas Karamchand Gandhi is widely recognized as one of the twentieth century's greatest political and spiritual leaders. Honoured in India as the father of the nation, he pioneered and practised the principle of Satyagraha—resistance to tyranny through mass nonviolent civil disobedience. Gandhi Jayanthi is also celebrated as the International Day of Non-Violence by the United Nations.

Famous and Thoughtful lines by Gandhi:

- Be the change that you wish to see in the world.
- An ounce of patience is worth more than a tonne of preaching.
- In a gentle way, you can shake the world.
- The greatness of a nation & its moral can be judged by the way its animals are treated.

It is believed that in the history of the world, there has not been a more genuinely democratic struggle for freedom than ours. Gandhi taught us to always speak the truth. He is said to have always spoken the truth since childhood. **"Nothing is or exists in reality except Truth"** He also taught that one shouldn't believe anything blind. Always seek the truth through careful examination and an open mind.

TALENT CORNER

OUR PAST

Our Past, was very vast.
 Full of trees and a wonderful breeze.
 There were lots of animals and dinosaurs,
 You could hear all the thunderous roars.
 Many people said, humans at that time were all naked!
 In our past there was clean water and air,
 Now, people don't even care!
 In the past, we could live freely,
 Now, we cant even breath properly.
 Before, animals species were more than a gazillion;
 Now, even less than million.
 Now, we must try to save our Earth,
 Or else no more living being's birth!

Thunderstorms

When the dark clouds come....
 Everyone run....
 When floods take over the city
 People need sympathy...
 When they find shelter....
 They taste salt water....
 When it becomes deadly....
 It started to be scary...
 When you find an abandoned nation.....
 It was just an imagination!
 When you see rain
 Use your brain!

Our Future

We enter the future
 No more nature
 There will be robotics
 With more of technics
 You want to go back to nature
 you can't even see your furniture
 you see a loading bar
 It would be a VR ! (virtual reality)
 Nation is full of radiation
 You may forget your destination!

Thank You
