# FROM OUR PRINCIPAL' DESK

**Dear LWA family,**

LWA was jubilant with celebration of the superb success of our class 12 and class 10 batch of 2022. The investiture of the new student council saw the student leaders take oath to carry about their responsibility with sincerity. Preparation for LWA PREMIER LEAGUE ( LPL) and inter house competitions are in full swing. Scouts and guides ,cubs and bulbuls and bunnies classes have resumed. We wish to share our success stories through this edition of our July newsletter. Happy reading to all !!

**-Ms.Santhi Swaminathan**

# LWA TOPPERS

Hard work and diligence are essential to be successful in life. Hard work can change the destiny of any human being. Our history has proved that hard work is essential to attain success several times. Scientist Edison used to work for hours a day. He used to doze off on his laboratory table along with his books and pillows. Mahatma Gandhi, the Father of our Nation and great leader, worked hard to get freedom for our country. Our great leaders, scientists, and successful people have always favoured working hard. Success is achieved by those people who work harder every day and manage their time properly. Managing time properly is the key to success. Time management is what most successful people do. It is important for students to know what they want to achieve in life and should have a clear vision of their dreams.

Its because of our Students hardwork ,Teachers and Parents support we are able to achieve good results in our Board exams this year.

Dear Ma'am. Very good morning. Hope all is well at your end. At outset, I would like to thank you and your entire crew for the outstanding results. This has happened all because of all teacher's hardwork, dedication and guidance. As a parent I am proud to say that my daughter got an opportunity to study in best school with blessed teachers who guided her for all aspects. I wish a great success to you, teachers and for the school. Thank you.

**-Mr.Venkat**

**Father of our topper Deepti Sri.**

# INVESTITURE CEREMONY

Investiture Ceremony is one of the most important event in which we entrust faith and hope in our newly appointed school council. We, at LWA, had our investiture ceremony for academic the year 2022 – 2023 on 11th July, 2022. The ceremony started with the graceful welcome dance performance by the students of class IX. Dr. Sankara Narayanan, Principal of Sree Gokulam public school, a member of the managing committee of LWA and also a guide and mentor to our school presided over this ceremony and pinned the batches to the elected representatives of the school council.

Hrishikesh Varahan was elected as the school pupil leader, Pavithra Suresh as the school activity captain, Kavin as School sports captain, Dishika as vice activity captain and Harjeet as vice sports captain.

The council members pledge to disperse their duties to the best of their abilities and abide by the rules and regulations of the school by taking Oath.

Oath taking was followed by the Chief Guest address to the gathering. Vote of thanks was delivered by Ms.Sujitha for this great event.

# LWA PREMIER LEAGUE ( LPL 2022-23)

Happy to announce LPL have been initiated by our Principal Ms.Sanathi Swaminathan. LPL 2022-23 matches has been started in month of July, several games were conducted like chess, Table tennis, Kho Kho. In the month of July Narmada leading with - 62 points followed by Ganga 60 points. Many students actively participated and this competition made a holistic and healthy life. It plays a great role in keeping them happy and focused. Playing a sport is a great way for children to take a break from academics and release the pent-up energy. It also helps them lead fuller and happier lives as regular sports and fitness activities have proven to provide not only physical benefits but also social and psychological benefits to children. The theme for LPL 2022 is **AZADI KA AMRIT MAHOTSAV** ( Celebrating Independence).

## Resume of cubs and bulbuls, Scouts and guides @ LWA

Cubs and bulbuls is the next lap in the journey towards scouting and guiding after Bunny. Character building is its aim. Instilling self – discipline and thoughtfulness for others, at a tender age, is the major focus, of the activities designed for this group. Scouts and guide activities help in physical development, mental development, social development, spiritual development and emotional development of young boys and girls. Students of LWA showed their active participation in all the activities.

# SPECIAL ASSEMBLY – WORLD HERITAGE DAY

School Assemblies provide the opportunity for children to shed their stage fear and to bring out their latent talent. At LWA, we ensure that every class gets an opportunity to conduct assembly. A theme will bring the whole assembly together thereby making it informative as well as entertaining. On July 18th the students of class 8B conducted the assembly on the theme "WORLD HERITAGE DAY". The assembly began with prayer song. This was followed by brief speeches in English, Hindi and Tamil - explaining the importance and need to preserve our Heritage and the Historical monuments. The teachers around including the children applauded the information poured in by the 8-B students.

The Thought for the day by the students served as a refresher to the minds of children and help them in taking positive steps in their day to day activities. Quotes from... THIRUKKURAL ... and DOHAS... have served to reinforce moral values in Children. To be well connected with the happenings in the world as well as in our school, students read the news for the day. We were enthralled by their scintillating dance performance depicting the heritage and diversity of our country.

Reciting from the HOLY scriptures...

BHAGAVAD GITA ...

BIBLE AND QURAN...

Was subscribing to the

Secular nature of our school in sailing with the Nation .

The assembly concluded with singing of NATIONAL ANTHEM in chorus.

Praise or rewards given in Assemblies are positive reimbursement to motivate students to achieve more. Students who participated in the science Olympiad and came out with meritorious ranks were awarded with cash prize and medals.

Class VIII B

# TALENT CORNER – COMPETITIONS @ VIDYA MANDIR

Every student is born with either one or multiple innate talents that make them aware of their skills and give them the impetus to heighten their skills further. Extra-curricular activities have helped to spread the wings of vital skills in every child's holistic progress. Taking part in different activities helps children explore various interests and create broader perspectives, as they will have the opportunity to explore a range of interests and unlock creative ideas. Being innovative or thinking outside of the box is extremely essential to be recognized as unique or stand out from others. Our LWA students have participated in the various competitions held at Vidya Mandir and won the following prizes:

- Ramp walk 1<sup>st</sup> prize.
- Fireless cooking 2<sup>nd</sup> prize.
- Group dance 2<sup>nd</sup> prize.
- Addzap 2<sup>nd</sup> prize.
- Foosket ball 2<sup>nd</sup> prize.
- Solo singing 3<sup>rd</sup> prize.

Class 9 to 12

# HORTICULTURE AND TREE PLANTATION

School Nutritional Gardens are good for learning, they are highly practical and a direct form of education, where children can learn how to grow good food, which not only improves health, but also provides opportunities for livelihood and increased self-sufficiency. Apart from practical skills in agriculture and horticulture, gardens are a living laboratory for the study of environmental issues and life sciences. It is a forum through which students can reach out to influence, engage their parents and neighbourhood communities to promote sound environmental behaviour. It will empower students to explore environmental concepts and actions beyond the confines of a syllabus or curriculum. Students of our school have planted a variety of plants in our school garden. Our Principal **Ms. Santhi Swaminathan** has planted a coconut tree in our garden.

- Hospital patients have been shown to recover from surgery more quickly when their hospital room offered a view of trees.
- Trees make life nicer. It has been shown that spending time among trees and green spaces reduces the amount of stress that we carry around with us in our daily lives.
- Children have been shown to retain more of the information taught in schools if they spend some of their time outdoors in green spaces.

# ***CLUBS AND ACTIVITIES***

# CLUB ACTIVITIES

Silambam is an ancient weapon-based martial art that originated in Tamil Nadu. It is one among the world's oldest martial arts. Silambam has a connotation that conveys a lot about the sport: silam means mountain, and bam means bamboo, which is the principal weapon used in this kind of martial arts. The primary purpose of the training is to prepare the user to defend themselves against many armed opponents.

Chess improves our memory and concentration. As we are focused on our game, it improves your visual memory. We could be a critical thinker if we play chess. Chess is a test of patience, nerves, will-power and concentration. It enhances our ability to interact with other people. It tests our sportsmanship in a competitive environment.

Karate comes from two words: "kara" meaning empty, and "te" meaning hand. That's because karate is a martial art that focuses on hand-to-hand combat rather than the use of weapons. The first style of karate was started on Okinawa. This rough fighting style was then polished and changed as it spread throughout Japan. Though karate has roots in self-defense and discipline, it's also used by many as a fitness workout that adds to their own exercise regimen.

Arts make students to develop skills like resilience, grit, and a growth mind-set to help them master their craft, do well academically, and succeed in life after high school. Art encourages fine motor skills, neural development, and problem-solving abilities and that it can be used effectively to teach and understand other key subjects such as reading, writing, math, and science. Art is valuable because it allows children to process their world, to deal with sometimes scary emotions in a safe way, and because it gives them critical sensory input.

# FRIDAY ACTIVITIES - PRIMARY

**Class 1  
(Rally about  
cleanliness)**

**Class 2  
(Indian Flag)**

Activity based learning motivates the students and also encourages them towards higher-order thinking. This also ensures better academic achievements of the students. Our students of primary have exhibited their hidden talents. Judges had a visit and selected the best ones.

**Class 3  
Collage making  
(Freedom fighters and  
environment)**

**Class 4  
(Badge making in  
Indian tricolours)**

**Class 5  
(Best out of waste)**

# Enrichment

*Because learning is what you make of it!*

# JULY – CLASS ACTIVITIES

Class 1

Show and tell is an important part of children's learning and development, as it helps them to organize information and builds their confidence. The students were excited to share their descriptive narration and waited eagerly for their turn.

# JULY – CLASS ACTIVITIES

நெகிழியால் ஏற்படும் தீமைகள்:

இன்றைய நவீன காலத்தில் நெகிழியின் பயன்பாடு அதிகரித்து வருகிறது. இந்த மக்காத குப்பையால் ஏற்படும் விளைவுகள் ஏராளம். தற்போது ஆய்வில் ஓசோன் படலத்தில் ஓட்டை விழுந்ததற்கு முக்கிய காரணம் நெகிழியே என்கின்றனர் ஆய்வாளர்கள். இதனால் நமக்கு தோல் வியாதிகள் அதிகரிக்கும் அபாயம் உள்ளது. ஆகவே நாம் அரசுடன் இணைந்து நெகிழி பயன்பாட்டை ஒழித்து வாழ்வில் நன்மையடைவோம்.

Class 3  
Tamil

Mathematics is at the heart of science and our daily lives. Mathematics is the science that deals with the logic of shape, quantity and arrangement. Math is all around us, in everything we do. It is the building block for everything in our daily lives. Students of class 3 have done an activity on one of the basic arithmetic operations i.e. subtraction. Where the students understood the concept of regrouping ones, tens and hundreds with the activity. Each student have performed the activity and solved the problem.

Class 3  
Mathematics

Class 7A  
Science

Students exhibited their talent by creating a circuit in science.

# JULY - CLASS ACTIVITIES

## FIRST AID- A ROLE PLAY

It is said that children learn the best by “doing” things. That is why we at LWA ensure that students have an active, hands-on approach towards learning.

The students of class 5 participated in a “role play” about using first aid techniques, where they demonstrated how to give first aid for burns, cuts, fractures and other injuries. Every student of the class participated in the activity with great enthusiasm. Subsequently, our faculty Ms.Malini, who is also an Advanced Scouts Master, demonstrated the different techniques of bandaging. The children observed the session with keen interest.

Class 5  
Science

Class 9  
Social

Seminars improve the confidence among the individuals. Students do a lot of research to gather information and in the process read and understand concepts better. This benefits the student to learn efficiently and effectively. Here the students of class IX presented their seminar on 'The physical features of India'.

# LWA FM-JULY 2022 - THEMES

Every  
Monday  
and  
Wednesday  
@4.30 pm
